Frameworks and Libraries: Bootstrap, jQuery, React, Angular

Frontend: Responsive and mobile-first design, design systems, component libraries, cross-browser compatibility, accessibility (WCAG), UI/UX implementation

Platforms & CMS: WordPress, Shopify

Databases: MySQL, MongoDB, PostgreSQL

Tools and Version Control: Git, GitHub, VS Code, Sublime Text, IntelliJ

Cloud: Google Cloud Platform (GCP)

EXPERIENCE

Web Development Manager, PowerVolt Inc — Hanover Park, IL — April 2024 – Present

Industrial electrical manufacturer (transformers and power supplies) with a 5,000+ product eCommerce catalog

- Lead frontend development of the company eCommerce storefront, a responsive, mobile-first catalog of 5,000+ transformers and power supplies
- Build the storefront UI in HTML5, CSS3, and JavaScript, turning designer mockups into working, on-brand pages
- Built and maintain a reusable component library and style guide, keeping the UI consistent across the storefront
- Improved page load time through asset optimization, lazy loading, and front-end SEO fixes
- Work with the Laravel backend team to wire up dynamic product content, and ship feature updates and bug fixes across browsers and devices

Frontend Developer, Indiventy Technologies — Bathinda, India (Remote) — April 2019 – July 2023

Web design and digital-marketing agency serving business clients across the US and India

- Built responsive, cross-browser client websites in HTML, CSS, JavaScript, and Bootstrap for businesses across a range of industries
- Structured Angular frontends with dependency injection, services, and directives so components carried across client projects
- Customized WordPress themes and plugins to client specs, implementing frontend layouts, styling, and functionality using HTML, CSS, JavaScript, and PHP

UI Developer, Webleaf Inc — India — August 2017 – March 2019

- Built accessible interfaces from UX wireframes in HTML, CSS, and JavaScript, meeting WCAG standards
- Refactored existing UI components for consistency, and documented UI patterns for the team

Computer Science Lecturer, Punjab Institute of Technology — Nandgarh, India — July 2015 – May 2017

- Taught web development, programming, and data structures through lectures and hands-on workshops, mentoring students on coding projects

EDUCATION

Master of Computer Science and Technology, Punjab Technical University — Punjab, India — 2013

Bachelor of Computer Science and Technology, Punjabi University Patiala — Punjab, India — 2010
